Dear Mr/Ms Recruiter,

With great willingness, I am writing to express my interest for the Malaysia AIRPORTS Trainee Programme, which was advertised at the linkenIn. After reviewing your job description, I knew I wanted to apply immediately. Given these requirements, I believe that my education, skill set, and experience make me a suitable candidate for this vacancy.

I am quality-oriented college graduate with Vice Chancellor Award 3.73 CGPA in Computational Science and Mathematics, majoring in Mathematics from the UiTM Kuala Terengganu. I wish to bring my knowledge, skills and commitment to excellence to your company's innovative environment.

I have a direct knowledge about a few modern technologies such as My Sql, HTML/CSS, JavaScript, ReactJs, MongoDB, Python, Java, C, C++ and Excel Macro. Through my education, I have direct experience in making a few application, such as Hotel Reservation System by using C, Car Reservation system by Java and Designing Irregular Shape application by using Mathematica for my Final Year Project and had won a gold award. Currently, develop some webpage such as 2PM Fan page, Recipe book and Music Quote page. Also actively involved in curricular activities by being Plan and Strategic Executive for my COMMATH Club and handling few charities event.

I started my career as an intern at Kuantan District and Land Company in 2019 for 4 months. As for the internship student who was directed by the supervisor to deal with the customer or practically to work as a customer service, I acknowledged customer issues and resolved their problems quickly and efficiently. Since this department have no system, I have seen that all the finding and filing process are hard and time consuming. Hence, I try to put my coding knowledge in creating a system for them by develop an excel system using VBA coding that smoothen the process of file searching. Hence, one of my greatest strength is problem solving. I always try to find more efficient and effective way of doing a task. The internship has subsequently convinced me that being a programmer is my true calling. If given the opportunity, I know I will be a strong asset to your company. Thank you for your time and consideration and I hope to hear from you soon.

For additional details regarding my qualification and expertise, please review my resume as attached with this letter.

Thank you for taking the time to consider this application and I look forward to hearing from you.

Yours sincerely,

Nur Syafiqah binti Nor Azizam
